ORGANIZATION CAPABILITIES AND COMPETENCES

- Advanced computer skills, in addition to Office, also include the basics of programming, as well as the use of various multimedia programs (sound, video editing, graphics). With his video editing skills, during his studies at the Faculty of Philology, he participated in the Shakespearean students' theater troupe at the Faculty of Philology "Hwaet!" with which he won a special prize at the festival of student Shakespearean theater in Bucharest.
- Extensive experience in scientific and other written translation, translated published articles in various fields, from law and economics to architecture. He also worked on the preliminary translation of the law on traffic for the needs of state negotiations with EU representatives.
- Experience in interpreting as part of international cooperation in education. Since 2020, as part of his work at the Tourist Secondary School, he has been a participant in the Green Globetrotters project as part of the Erasmus exchange, in which school students from all over the world learn about various environmental topics. In that role, he led a group of students to Italy on a rural ecology learning project where he translated from and into English and led a group of gifted students.
